EDUCATION

- 2021

●

Emory University

Master of Science in Public Health in Biostatistics

Atlanta, Georgia
- Relevant Coursework:

Survival Analysis Methods, Modern Regression Analysis, Clinical Trials Methodology, Biostatistical Methods, Probability Theory, Applied Linear Models, Statistical Inference, Machine Learning, Statistical Practice, Epidemiology Methods
- Masters Capstone:

"Assessing the Relationship between Breast Cancer Mortality and BMI by State and Race" (Advisor: Jeffrey Switchenko, PhD)
- 2016

●

George Washington University

Bachelor of Science in Public Health, Minor in Biological Sciences

magna cum laude

Washington, DC

PROFESSIONAL EXPERIENCE

- Present

|

2025

●

Memorial Sloan Kettering Cancer Center

Research Biostatistician II

New York, New York

• Collaborate with clinicians and researchers from design to publication phase to answer questions relating to cancer genomics, survival outcomes, etc. using statistical analyses and visualizations

• Perform statistical analysis in SAS and R for Global Cancer Disparities Initiative, Hepato-Pancreatic-Biliary Surgery, and Melanoma groups

Graduate Research Assistant

Atlanta, Georgia

• Researched state/region and race-specific obesity patterns in relation to breast cancer mortality over time

• Compiled and analyze SEER and BRFSS data from 1990-2017 using SAS, SAS-callable SUDAAN, and R

• Produced tables, figures, and maps summarizing obesity and breast cancer mortality rates by state and race

• Analyzed relationship between breast cancer mortality count and BMI by state and race using Poisson Regression

2020

Emory Biostatistics Collaboration Core

Data Analyst

📍 Atlanta, Georgia

- Cleaned Michigan Polybrominated Biphenyls (PBB) Cohort datasets using SAS in order to make data available via a new data management platform
- Created data dictionaries for Michigan PBB Cohort datasets with consistent search term/field label coding
- Conducted power and sample size analyses for NIH grants
- Performed quality assurance checks on psychometric datasets

|
2016

WCG Statistics Collaborative (formerly Statistics Collaborative, Inc)

Senior Research Associate, Research Associate, Research Assistant

📍 Washington, DC

- Coordinated and supported several Phase 2 and Phase 3 clinical trials with indications for: heart failure, cardiovascular disease, chronic kidney disease, pediatric growth hormone treatment, and HIV
- Managed and led multiple projects under supervision of Statistical Scientists for: orphan neurological disorders, infectious disease, and cardiovascular disease in a genetically pre-specified population
- Wrote and reviewed data monitoring committee reports
- Prepared table, figure, and listing shells for statistical analysis plans
- Utilized standard SAS code and in-house macros to produce and audit graphs, tables, and listings
- Created and audited SAS analysis programs
