Updated July 2026

EDUCATION

Master of Science in Public Health in Biostatistics

Emory University, Atlanta, Georgia Aug 2019 — May 2021

- Relevant Coursework: Survival Analysis Methods, Modern Regression Analysis, Clinical Trials Methodology, Biostatistical Methods, Probability Theory, Applied Linear Models, Statistical Inference, Machine Learning, Statistical Practice, Epidemiology Methods
- Masters Capstone: "Assessing the Relationship between Breast Cancer Mortality and BMI by State and Race" (Advisor: Jeffrey Switchenko, PhD)

Bachelor of Science in Public Health, Minor in Biological Sciences (magna cum laude)

The George Washington University, Washington, DC Aug 2012 — May 2016

PROFESSIONAL EXPERIENCE

Memorial Sloan Kettering Cancer Center

Research Biostatistician II *Feb 2025 — Present*

Research Biostatistician I *Sep 2022 — Feb 2025*

Assistant Research Biostatistician *Jul 2021 — Sep 2022*

- Collaborate with clinicians and researchers from design to publication phase to answer questions relating to cancer genomics, survival outcomes, etc. using statistical analyses and visualizations
- Perform statistical analysis in SAS and R for Global Cancer Disparities Initiative, Hepato-Pancreatic-Biliary Surgery, and Melanoma groups

Emory Rollins School of Public Health

Graduate Research Assistant *May 2020 — May 2021*

- Researched state/region and race-specific obesity patterns in relation to breast cancer mortality over time
- Compiled and analyze SEER and BRFSS data from 1990-2017 using SAS, SAS-callable SUDAAN, and R
- Produced tables, figures, and maps summarizing obesity and breast cancer mortality rates by state and race
- Analyzed relationship between breast cancer mortality count and BMI by state and race using Poisson Regression

Emory Biostatistics Collaboration Core**Data Analyst** *June 2020 — August 2020*

- Cleaned Michigan Polybrominated Biphenyls (PBB) Cohort datasets using SAS in order to make data available via a new data management platform
- Created data dictionaries for Michigan PBB Cohort datasets with consistent search term/field label coding
- Conducted power and sample size analyses for NIH grants
- Performed quality assurance checks on psychometric datasets

Emory Rollins School of Public Health**BIOS 500 Graduate Teaching Assistant** *Aug 2020 — Dec 2020*

- Created answer keys and graded assignments and exams for 105 students
- Assisted 105 students in learning SAS programming and statistical methods

Centers for Disease Control and Prevention**Epidemiology/Data Management Graduate Assistant** *Nov 2019 — May 2020*

- Analyzed 400,000 observation dataset (National Tuberculosis Surveillance System) and produced SAS summaries
- Composed original research proposal for analytic project based on National Tuberculosis Surveillance System

WCG Statistics Collaborative (formerly Statistics Collaborative, Inc)**Senior Research Associate** *Jul 2018 — Jul 2019***Research Associate** *Jun 2017 — Jul 2018***Research Assistant** *Jun 2016 — Jun 2017*

- Coordinated and supported several Phase 2 and Phase 3 clinical trials with indications for: heart failure, cardiovascular disease, chronic kidney disease, pediatric growth hormone treatment, and HIV
- Managed and led multiple projects under supervision of Statistical Scientists for: orphan neurological disorders, infectious disease, and cardiovascular disease in a genetically pre-specified population
- Wrote and reviewed data monitoring committee reports
- Prepared table, figure, and listing shells for statistical analysis plans
- Utilized standard SAS code and in-house macros to produce and audit graphs, tables, and listings
- Created and audited SAS analysis programs

SKILLS

Expert: R, RStudio, SAS, Quarto, Git/GitHub, Microsoft Office Suite

Proficient: Python, Joinpoint Regression, SAS-callable SUDAAN, SEER*Stat

Familiar: Docker, GIS, LaTeX

CERTIFICATION

SAS Certified Specialist: Base Programming Using SAS 9.4 *Issued December 2019*

PRESENTATIONS AND POSTERS

Presentations

Expanding biostatistics research and training efforts beyond MSK - A global health initiative

Seminar for Memorial Sloan Kettering Department of Epidemiology and Biostatistics, New York, NY, November 2025

Linear Regression II: Regression Diagnostics

Lecture for Obafemi Awolowo University (Ile Ife, Nigeria), Virtual, May 2024

Linear Regression I: Introduction and Assumptions

Lecture for Obafemi Awolowo University (Ile Ife, Nigeria), Virtual, May 2024

Poster

Real-world evidence following a clinical trial: An application in biliary tract cancer

Society for Clinical Trials Annual Meeting, Boston, MA, May 2024

PROFESSIONAL SERVICE

Society for Clinical Trials

Program Committee Member 2025 — present

- Review and select applications for sessions at annual meeting
- Ensure sessions represent diverse interests
- Choose poster award recipients

Member 2023 — present

Memorial Sloan Kettering Bridge to Biostats

Member 2021 — present

- Co-lead 8th grade and high school “Biostats Days” to introduce students to biostatistics
- Mentor high school students part of the Bridge to Biostats Summer Program (B2BSP)
- Teach introduction to R Studio for high school students in B2BSP

Peer Reviewer
